Experience

Nelnet Business Services – Remote, USA

03/2022 – 05/2024

Software Engineering Manager

Helped define technical product vision and strategy for a B2B SAAS product with 3.2 million end-users across 35,826 clients.

- Developed and prioritized technical product roadmaps, leading multiple Agile teams in the design, development, and deployment of a payment platform processing over \$100,000,000 annually.
- Consulted on product feature scope and technical requirements, including security permissions, and identity management.
- Delivered software solutions through evidence-based product planning, resulting in a less than 5% error rate in delivery projection.
- Was a key member of a process change management team charge with adopting AI tooling such as Github Copilot and ChatGPT into production workflows.
- Played a lead role in recruitment, onboarding, and mentorship of software engineering teams, increasing team retention and fostering a collaborative work environment.

VML – Kansas City, MO

01/2020 – 02/2022

Associate Director, Marketing Technology

Acted as an integrated marketing technology specialist, delivering high-quality branded experiences for clients such as Ford Motors, T-Mobile, and Pfizer.

- Used market research to develop cohesive content marketing strategies for a multinational pharmaceutical client with over 55 global products.
- Led a process transformation team to optimize e-commerce systems design for a Fortune 50 client, implementing process automation through middleware creation, and achieving \$500,000 in quarterly operating cost savings.
- Advocated for and implemented modern workflows in video production for a global brand, utilizing DRY and KISS programming principles, drastically improving marketing content time-to-market by 960%.
- Contributed to the enhancement and expansion of brand strategy, brand standards, and style guidelines for multiple Fortune 500 clients, resulting in improved brand consistency.
- Designed and implemented training systems for internal content marketing management tools, improving user proficiency.

Fire Engine RED – Remote, USA

03/2013 – 04/2019

UX Director

Championed user-driven product design for the flagship B2B SAAS product, creating wireframes, prototypes, and ensuring intuitive onboarding and support.

- Led UX design for an enterprise CRM, translating complex requirements into user-friendly designs, contributing to 200% sales growth over three years.
- Built and led a top-tier UX team, fostering collaboration between marketing, design, software engineering, sales, and other stakeholders, which improved project delivery.
- Conducted market research and competitive analysis to inform product design decisions, enhancing team productivity by 30% with improved style guides, brand assets, UX tools, processes, and training.
- Established KPIs to highlight user success, inform design decisions, and plan product roadmaps while reporting directly to the CEO.
- Led the experience design of key software platform features such as data imports/exports, identity management, cyber security, role creation, permissions, data reporting, web accessibility standards.
- Rapidly prototyped front-end interfaces using Javascript, HTML, and CSS, reducing development time by 25%.

Voltage Creative – Kansas City, MO

03/2006 – 02/2012

Designer | Software Engineer | Project Manager

Played multiple roles including designer, web developer, account manager, sales rep, and project manager over six years at a B2B and B2C integrated marketing agency, contributing significantly to a 100% agency growth rate during my tenure.

Healthbolt.net – Kansas City, MO

01/2005 – 07/2006

Creative Director

Utilized content marketing strategies to build a multimedia platform from scratch, achieving 2.5 million recurring monthly page views, and successfully orchestrated its acquisition by b5media.

Walton Construction – Kansas City, MO

08/2003 – 03/2006

Marketing Assistant

Managed production design for a large national general contractor over two years, assembling bids, creating marketing collateral, and supporting various marketing initiatives.
